

Alpine strongback nailer

close-up view of strongback nailer

- A STRONGER WALL
 - A STRAIGHTER WALL
 - INCREASED NAILING SURFACE
 - STANDARD ON ALL HIGH SIDEWALLS
-

Using computerized components saws, each individual wall stud is cut with a specialized notch. We then install our 2x3" Strongback Nailer, creating a *straighter, stronger wall*, and providing *increased nailing surface* for our siding panels.
